"In fact, the so-called tri-generation technology (heat, electricity and hydrogen) should work just as well at landfills as wastewater treatment plants. If so, the collective piles of human waste could "power more than 30 percent of the automobile population" in Southern California, Samuelson noted."

Future of Technology - Poop fuels hydrogen cars

An experimental fuel cell at a wastewater treatment plant in California is turning poop flushed down the drain into hydrogen fuel for cars. The novel fuel cell converts biogas — methane — produced in digesters at the plant into heat, electricity and hydrogen.

"Polling by the Pew Research Center suggests that unaligned voters are increasingly alarmed about the prospects of failing to raise the debt ceiling by Aug. 2. Their mood could help Obama next year if he can build and sustain an image as an accord-seeking leader trying to protect average Americans."

The Associated Press: Debt crisis may help Obama woo independent voters

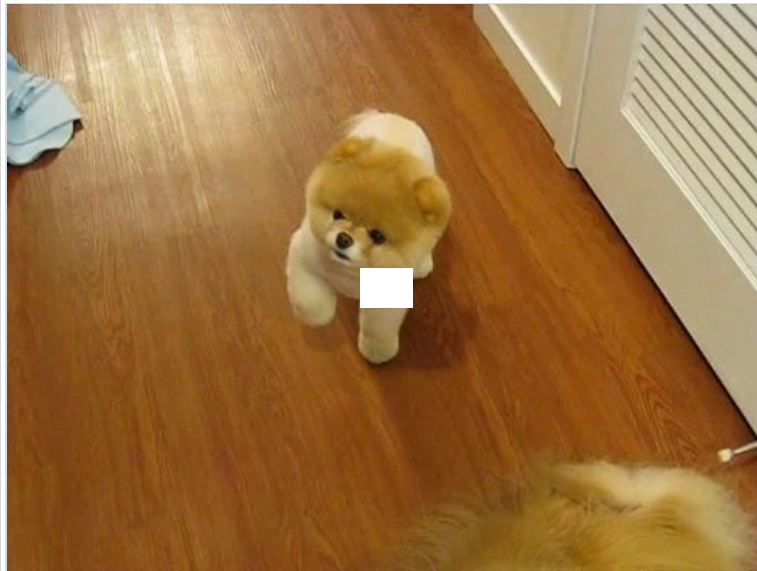

WASHINGTON (AP) — It's possible the debt-ceiling debate will turn out badly for President Barack Obama. For now, however, it may be helping his image with a vital group: independent voters, who have decided the last several elections.
